Workshop Description:

Welcome to the NEW html PowerTeacher gradebook! PowerTeacher Pro, a full-featured grade keeping application used to enter scores, record, report, and monitor student performance. PowerTeacher Pro will keep the teacher, student, parent, and office all linked together to impact every student's education.

This newest system takes what has been on one page, and now adds PowerTeacher Pro, making it easier for a teacher to put in grades, print reports, take attendance, and so much more. Come get an understanding of USD 261's grading system! And - now Java Free!

Presented By: Keven McDonald

Keven McDonald has been in USD 261 for 25 years. He taught at Campus for nine years, and has since been a middle school counselor. Sadly - when he can't sleep at night, Keven logs into PowerSchool to learn about the newest features and pieces of the software. Keven tries to learn all aspects of PowerSchool so that he can pass on the information to help others succeed in understanding. Keven has taught 'PowerSchool for Admin,' 'PowerScheduler,' and 'Power Teacher Gradebook' at TLC.
