THE INNOVATOR'S MINDSET

Friday, April 27, 2018

Being a teacher is not a superpower; the way we teach is. It's the mindset you bring into the classroom and to your school that can help change the world.
-George Couros, The Innovator's Mindset

THE INNOVATOR'S MINDSET

Workshop Description:

Carol Dweck's work has focused on the ideas of "fixed" and "growth" mindset, yet educators will need to go a step further with these notions to create the learning opportunities that our students and schools deserve. We need to not only focus on what we know, but what we do with what we know. In this talk, George will discuss the idea and characteristics of "The Innovator's Mindset" (as discussed in the book of the same title), and share powerful examples on why this is so crucial for all educators. George's presentations are known to be emotional, humorous, all while pushing your thinking, and will definitely

ly connect to your heart first, in a way that will last with you long after this workshop.

Presented By: **GEORGE COUROS**

I am a learner, educator, and Innovative Teaching, Learning, and Leadership consultant. I am also the author of "The Innovator's Mindset". I believe we need to inspire our kids to follow their passions, while letting them inspire us to do the same. I have had the privilege of working with schools and organizations in many places around the world through conferences, keynoting, providing workshops, and consulting on how organizations can move forward by creating innovative environments for all learners in the community. Through conversations, both online and face-to-face, I work before, during, and after presentations to empower participants and to build strong connections to not only the content I am discussing, but also to myself as a presenter and educator.
