## Workshop Details:

Nervous about jumping into the substitute teaching world? Sign up for an awesome workshop packed with tips for thriving as a substitute teacher! During this workshop, participants will receive resources for substitute teaching, learn how to be prepared for almost any kind of day, and network with other substitutes. The first half of the day we will look at sample sub plans, discuss classroom management, teaching strategies and navigating a school day. In the afternoon, we will practice filler activities and transitions. We will put together a "bag of tricks" with ready to use activities. You will leave this workshop ready to enter the classroom and charm (almost) any group of students.

## Presenter: Becky Stanfield

Becky has fifteen years of classroom experience - mostly as a middle school classroom teacher, but more recently as a substitute teacher to allow for a flexible schedule. Becky has worked in almost every grade level setting (even if just for a day) and in 4 different school districts. Becky has taken on several long-term substitute positions and has required one for her own class. She misses having her own class, but she loves the variety of meeting new people and learning from other classroom and substitute teachers. She has a Bachelor of Science in Elementary Education from Pittsburg State University and a Master's in Environmental Science from Friends University.
