USD 261 Haysville does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities.

REGISTRATION DEADLINE: NOVEMBER 7TH

Description:

Are you in need of some new ideas to increase technology use in your classroom? In this session, you will learn about a variety of tech tools to establish and grow a blended learning environment. During the first part of the day, topics will include tech tools on platforms, lesson presentation, collaboration, visualization, screencasting, flipped/blended learning, and assessment, each flexible enough to work with the technology available in most classrooms. During the second half of the day, teachers will pick their favorite tools and create a plan for how they can use them to become more innovative with their teaching practices. You will have ample time to explore your favorite tech tools so that you can begin implementing them in your classroom right away. This session is geared toward 3rd grade through high school classrooms that have at least 4 or more student devices available to use in their rooms.

Presenter - Amber Marshall

Presenter Info: Amber Marshall has previously worked as a 2nd grade teacher and middle school English teacher in the Catholic Diocese of Wichita and is currently the K-5 Technology teacher at Oatville Elementary in Haysville. She earned her Elementary Education degree from Wichita State University and her Master of Science in Educational Technology with a dual emphasis as a Technology Integration Specialist and Library Media Specialist from Pittsburg State University. Amber has experience teaching in classrooms where technology is available from 12:1 to 1:1. She enjoys helping teachers effectively integrate the technology available to them to individualize student learning and improve engagement.
