

Note to Teachers: To use this Point Record, run one form off for each student. Remove this top portion and discard. Have students glue the Point Record in their AR Logs and color one square for each point earned. (You may want to give younger children one square at a time so they won't feel overwhelmed by trying to reach 100 points.) After they fill out each 25-point square, have them record their Average % Correct upon reaching that goal. By doing this, they can track their progress in points earned as well as comprehension scores.

.....

AR Point Record

		25		
Points				

Average % Correct _____

		50		
Points				

Average % Correct _____

		75		
Points				

Average % Correct _____

		100		
Points				

Average % Correct _____
