Coding Expenditures in the Budget Document

(Definitions for Functions, Subfunctions, Objects)

Funds in the USD budget document have a general definition as currently used under Kansas law which would include such funds as general, vocational education, special education, etc. Within each fund will be a breakdown by function, subfunction, object and subobject. This document will explain what expenditures should be charged under which code.

Additional information can be found in the **Kansas Accounting Handbook** which is available on the KSDE School Finance website (located under Guidelines): <http://www.ksde.org/Default.aspx?tabid=1877>. This handbook explains in detail how functions, subfunctions and objects are used to breakdown expenditures in each of the funds, and includes a section with Guidelines for Activity Funds.

* This provision applies to pupils that would qualify for paid or reduced priced lunches, and did not meet proficient in Math or Reading State Assessments in the prior year. The virtual school must have a virtual at-risk pupil assistance plan on file with KSDE.

** The Advanced Placement (AP) course is not available in the home district of the virtual pupil. The home district is either more than 200 square miles or has an enrollment of at least 260 pupils.

"Virtual School" means any school or educational program that: (1) Is offered for credit; (2) uses distance-learning technologies which predominately use internet-based methods to deliver instruction; (3) involves instruction that occurs asynchronously with the teacher and pupil in separate locations; (4) requires the pupil to make academic progress toward the next grade level and matriculation from kindergarten through high school graduation; (5) requires the pupil to demonstrate competence in subject matter for each class or subject in which the pupil is enrolled as part of the virtual school; and (6) requires age-appropriate pupils to complete state assessment tests.

ADDITIONAL DEFINITION FOR SCHOOL FACILITIES (Must use a minimum LOB listed below to qualify for this provision.)

a) School Facilities Definition - School facilities weighting is available for school districts whose adopted local option budget (LOB) is at least 25% for 2013-14 and have constructed an entirely new facility or an addition to an existing facility.

The determination of weighting will be based upon the number of full-time equivalent (FTE) students that are enrolled and attending in the new facility September 20 (and February 20 for districts qualifying under K.S.A. 72-6448). In the case of school districts that have constructed an addition to existing facilities, the number of students that are enrolled and attending in the new addition will be counted on a full-time equivalent basis (see example 2.) The additional weighting for this provision of the law is applicable for two years only. For a new facility, the FTE is for the entire building (see example 1). For additions to an existing facility, the following calculating would be utilized.

Example #1: (For new buildings.)

For a totally new constructed building, the FTE equals the total enrollment FTE for that building.

	<u>Headcount</u>		<u>FTE</u>	
Kindergarten	77		38.5	
Grade 1	87		87.0	
Grade 2	81		81.0	
Grade 3	75		75.0	
Weighting for example:			281.5	$\times 0.25 = 70.4 \times \$3838 = \$270195$

Example #2: (For new additions)

Total number of students in each new classroom _____
 Number of class periods (divide by) _____
 Full-time equivalent enrollment = _____

Example:	New classroom A =	105	students for the day
	New classroom B =	154	students for the day
	New classroom C =	133	students for the day
	New classroom D =	121	students for the day
	TOTAL =	513	
	divide by	7	class periods
	=	73.3	FTE

Weighting for above example: $73.3 \times 0.25 = 18.3 \times \$3838 = \$70235$

Qualifying for New Facilities Weighting

In order to qualify for new facilities weighting, a district must have adopted at least a 25% local option budget.

2013-2014 Budget General Information

USD 261

Introduction

The school board, administrators, teachers, and staff worked diligently this past year to persevere in the face of severe budget cuts and an anti-education faction in the Kansas Legislature. The district worked hard to improve academic achievement for all students. As a learning community all members improved their knowledge and skills.

The District's Accomplishments and Challenges

Accomplishments

This year Haysville USD 261 has been able to accomplish extraordinary things. The District's Strategic Plan includes five goal areas: 1. Student Learning and Success, 2. To Recruit, Develop and Retain a Highly Effective Workforce, 3. Facilities and Infrastructure, 4. Community Partnerships, and 5. Pursue and Develop Financial Resources.

The Student Learning and Success Strategic Goal Team provided leadership to support the planning and implementation of the International Baccalaureate program at Campus High School. Teachers and administrators were introduced to new College and Career Readiness Standards. A team began considering a new approach to teaching students in grades PK-1. All teachers and administrators received training in Capturing Kids Hearts. Several Bring Your Own Device (BYOD) pilot programs were started throughout the district. The members of the Guiding Coalition continued their leadership work. In addition, Professional Learning 4 Leaders got off to a great start. The Coaching Leadership Academy was established and 24 district head coaches attended. The administrative team participated in a book study and attended a "Leadership Coaching for Results" seminar. A Kansas Teacher of the Year candidate was named to the KTOY Leadership Team as a result of being a Regional Finalist. Several student groups attended national competitions and one student was a national champion. Nelson Elementary School was named a National Distinguished Title I School. School in the district received 42 Standard of Excellence Awards. The high school student council was named a Council of Excellence and its sponsor was named State Sponsor of the Year.

The Recruitment, Development and Retention Strategic Goal Team was able to achieve a large number of its objectives. The team was instrumental in creating a new district logo. In addition, a recruitment display was placed at Town West Mall. All district special education and Title I paraprofessionals earned the distinction of "highly qualified". Work has begun on the creation of new evaluation documents for teachers and principals. We continued to provide training for inexperienced and experienced substitute teachers. A climate survey was administered in each of our school buildings and results were shared with staff members. Monthly "Fun Days" were conducted in order to boost morale. The district was able to provide raises.

The Facilities and Infrastructure Strategic Goal Team accomplished much over the past year. The Johnson Controls Energy Savings Performance Contract Projects was completed and resulted in \$107,160 in savings. The district wide energy conservation program has saved the district \$4.1 million over the past ten years. Numerous improvements were made in the area of safety and security. The District Crisis Team continues to serve as a model for all school districts. Facilities throughout the district were improved and upgraded. The wireless network was upgraded to provide support for the BYOD Program. In addition, preparations are being made to replace all certified staff laptop computers. New library software was purchased to unify the system throughout the district.

The Community Partnership Strategic Goal Team achieved many of its objectives. Students and staff donated time, talent, materials and funds to work in partnership to make the community better. The school district and the city work together on numerous projects and activities. Many

staff members serve on community boards such as Haysville Forward, City Council, Chamber of Commerce, Planning Commission, Pride, and the Historic District Committee. The community is able to rent school facilities for a variety of uses. The Learning Center provides seminars for our employees and employees of other districts. This past year two of our teachers received KAKE Golden Apple Awards. In addition, the district won the Kansas Association of School Boards Publication Contest for the third year in a row.

The Pursue and Develop Financial Resources Strategic Goal Team has been able to implement create way to enhance funding through the Limited Open Enrollment Program. In addition, the QZAB Program has helped the district improve its facilities at a very low cost.

Challenges

Lack of funding continues to be the biggest challenge facing the district. Between the General Fund, Local Option Budget Fund and Capital Outlay Fund, the Legislature has underfunded our district by over \$8,000,000 each year. Despite this, the staff has been able to rally and provide a high quality education to all students.

Supplemental Information for the Following Tables

1. Summary of Total Expenditures by Function (All Funds)

The Base Budget Per Pupil (BBPP) was decreased from \$4,012 in 2009-10 to \$3,937 in 2010-11 to \$3,780 for 2011-12 and to \$3,838 in 2013-14. This was a slight change in the pattern of decreased funding, however other changes in the funding formula will keep the total amount of state funding relatively level. Still spending increased in a number of areas over the previous year, this was due to an increase in overall costs, not an increase in per pupil funding.

The budgeted expenditures for 2013-14 reflect a modest increase in enrollment. I would like to remind you that a budget is just a budget and even though increased expenditures are budgeted in a number of areas, those may not occur. It is our practice to budget conservatively, but enough so that we do not have to republish to capture increased expenditures. The district never plans to spend all that is budgeted except in the funds that must be \$0 balance at the end of the year.

2. Summary of General Fund Expenditures by Function

Note as indicated on the table, this information pertains to "General Fund" fund line items. Therefore, the amount spent per pupil is not the same as in the previous graph and the % of increase/decrease for 2013-14 vs. 2012-13 may not be the same either. The amount of expenditures does not include the mandatory transfer to the Special Education Fund or other fund transfers.

Thus the General Fund expenditures overall were up slightly, 6%, from last year. This is due in part to a change in expenditures that were previously spent out of Supplemental General Fund as per KSDE directive for use of ARRA stimulus monies. The rest of the increase is a result of the district's increase in compensation at the re-opening of negotiations.

The 2013-14 budget figures are not reflective of what actual costs will be because the FTE and weighting factors in the General Fund are all just estimates until submitted following the September 20th official count date and the state audit of those figures in March. USD 261 is budgeting for a small enrollment increase for the coming year. While enrollment was slightly higher last year we hope the limited open enrollment of our schools will bring in a slight increase of 50 students.

3. Summary of Supplemental General Fund Expenditures by Function

In comparing the previous two year's actual figures, you will note the significant increase in the total expenditures and expenditures per pupil. This is the result of an increase cost of education being pushed onto the local tax base by the Kansas legislators.

Looking toward 2013-14, the SG Fund remains at its maximum 30% of the GF. Also, the BBPP that the SG Fund is based on is the "hold harmless" figure of \$4,433 instead of \$3,838 because of the impact it would have had on local taxpayers. Our own SG fund continues to be impacted from a local tax standpoint as the State of Kansas is continuing to not fully fund the state aid portion of the SG Fund. USD 261 is a 75.96% state aid district, but the State is

only funding that at a 78% proration which means the local taxpayer must pick up a greater share of the funding of the SG Fund (LOB).

4. Summary of General and Supplemental General Fund Expenditures by Function

This graph is a combination of graphs in #2 and #3. Therefore the rationale behind this graph would be cumulatively the same as it is for #2 and #3 above.

5. Summary of Special Education Fund by Function

Special Education costs continue to commonly rise faster than general education costs and the State and Federal governments continue to fund it at less than 100%. The expenditures for this area show a slight increase overall, with the greatest coming in Instruction. This can be attributed to a slight increase in wages and an ever changing need in services. There was, however, a slight decrease from Student and Instructional Support.

Budgeted costs for the coming year are up slightly. We want to be conservative, but yet budget enough to allow for increased needs in special education staffing and services.

6. Instruction Expenditures (1000)

Overall, instructional expenditures were down by 2% this past year due to the cuts from the State of Kansas. The 2013-14 budget reflects a slight increase in expenditures this is a direct result of an increase in compensation increases. Instructional expenditures for Virtual Education showed a marked decrease as the program was phased out. This will also be reflected in a marked decrease in Virtual Education for Student and Instructional Support Expenditures in #7.

Budgeted increases for the coming year are primarily based on projected enrollment increases thus necessitating increased instructional expenditures if funding from the State of Kansas allows.

7. & 8. Student and Instructional Support Expenditures (2100 & 2200)

Expenditures in this category showed a marked slight decrease from a year ago. The 2013-14 budget reflects a slight increase as demands on student support continue to grow based on diverse needs of our students. We continue to strive to be conservative in our spending in anticipation of a couple of more years with State financing of K-12 education difficulties.

9. General Administration Expenditures (2300)

The budget for the coming year reflects potential increases that may or may not be realized.

10. School Administration Expenditures (2400)

School administration expenditures decreased slightly this past year, reflective of the overall decline in school finance dollars. There was no reduction in school administrative personnel. The current year shows some budgeted increases, it is a budget and no additions to school level administrative personnel are taking place at this time.

11. Operations and Maintenance Expenditures (2600)

Expenditures for this area were up in comparison to the prior year. This is a direct reflection on the conservation efforts by district staff to take measure to keep cost down over the previous years. The 2013-14 budget reflects a level status of expenditures as the recent capital improvements helped elevate grown structural needs.

12. Transportation Expenditures (2700)

Expenditures for student transportation show a slight increase in comparison from previous years. The growing need combined with the increase cost of maintenance contribute the increase in costs associated with student transportation.

13. Food Services Expenditures (3100)

Food service costs continue to increase as the changes in federal regulations combined with the increased cost for food contribute to the increase in expenditures.

14. Other Costs (2500 & 2900: Other Supplemental Services) (3000: Non-Instruction Services)

Overall costs in this area appear to be up slightly compared to the prior year and are projected to increase in the 2013-2014 school year. Budgeted costs are up, but just for budgeting reasons with the greatest increase in Capital Outlay, although the increased amount there is not truly expected to be spent.

KPERS contributions from the State continue to increase and its contributions to KPERS are reflected back to the local districts through expenditure.

15. Capital Improvements (4000)

The costs in this area for 2012-13 were for issues such as roof repair, parking lot repair & expansions, carpeting, and equipment upgrades. Capital Improvement costs are projected to be slightly more for the 2012-14 school year.

16. Debt Services (5000)

Debt Service decreased slightly as the district was trying to keep the mill levy increase down two years ago. The increase in cash basis reserves is needed to have cash on hand to make the annual fall payments for bonded indebtedness. Once we re-establish this cash reserve level it should continue to level out unless the capital improvement state aid level decreases or the valuation does not rise as quickly as projected in the bond amortization schedules. For this coming year, the debt payments are slightly higher than a year ago to compensate for the payments on the QZABs.

17. Miscellaneous Information – Transfers

Transfers were slightly up in 2012-13 over the prior year. If the funding levels continue to decline the district may have to rely on the prior transfers and thus projected/budgeted transfers for the coming year are off another 7%.

18. Miscellaneous Information Unencumbered Cash Balance by Fund

Do to the measures taken by the district and its employees in 2012-13 the unencumbered cash balances rose for July 1, 2012. This is in anticipation of further cuts in State funding over the next two fiscal years.

19. Reserve Funds Unencumbered Cash Balance

USD 261 has no Reserve Funds.

20. Other Information – FTE

The district's enrollment remained relatively flat. This past year it rose primarily to the limited open enrollment of out-of-district students. Also, the continuation of the ESSDACK Learning Cafe affected the enrollment, but funds generated by that were merely passed through USD 261 to ESSDACK. However, it was reflected in our enrollment count.

The district continues to hope to have a steady increased enrollment over the next several years as the economy starts to rebound from the recession. The district is projecting a 1% increase for 2013-14.

21. Miscellaneous Information Mill Rates by Fund

Please note the requested 0.474 mill levy decrease for 2013-14.

We are increased Capital Outlay mill levy last year. As we get further out from the previous bonds the needs for capital improvements will continue to increase. We will need to start the come back up toward the 8 mill maximum over the next few years if we want to maintain the facilities and equipment of the district to the level they should be maintained. Historically, we have tried to keep the mill levy increase as flat as possible. It has gone up as the district started paying on the new bonds and has continued to rise as those bond payments have increased.

The patrons of Haysville USD 216 have been very supportive of our schools and our facilities. We hope they continue to have pride in the Haysville schools.

22. Other Information – Assessed Valuation and Bonded Indebtedness

The district valuation continues to increase, but in the past three years with the economic downturn, the assessed valuation has gone up only slightly compared to six years ago when the district's valuation rose by \$7,000,000 over the previous year. Note that now all of the bonded indebtedness from the last bond issue is being reflected and is starting down as some earlier bonds are being paid off. This should continue to decline until district growth calls for another bond issue to handle the increased enrollment of the district.

Note: The FTE (full time equivalency) used in this report to calculate the “Amount Per Pupil” is defined as following: Enrollment (FTE) includes the enrollment of the district used for state aid and budget authority, and all other preschool enrollment and kindergarten students attending full time.

**Coding Expenditures
in the Budget Document**

Coding the USD Budget Document

Funds will have the general definition as currently used under Kansas law which would include such funds as general, vocational education, special education, etc. Within each fund will be a breakdown of 5 major **functions** performed by school personnel or activity. *The function describes the activity for which a service or material object is acquired.* These 5 major functions include instruction, support services, operation of non-instructional services, facilities acquisition and construction services, and other outlays such as debt service and fund transfers.

Functions are further broken down into subfunctions, service areas and areas of responsibility. The major subfunctions fall under the support services. The services include student support, instructional support, general administration, school administration, operations and maintenance, and other support services. Each of these levels consists of activities that have somewhat the same general operational objectives. Furthermore, categories of activities comprising each of these divisions and subdivisions are grouped according to the principle that the activities can be combined, compared, and are related. For example:

Function	2000	Support Services
Subfunction	2300	General Administration
Service area	2310	Board of Education Services
Area of responsibility services	2313	Board Treasurer

An effort has been made to group together functions in relation to the magnitude of expenditures typically found in the LEA. This grouping corresponds to the categories most frequently requested in reporting to external authorities, especially the federal government. The numbering code for functions are always in even thousands, such as 1000; 2000; 3000; etc.

Within each function or subfunction will be a breakdown of expenditures that will be **object** codes. Examples of object codes would be salaries, employee benefits, purchased professional and technical services, purchased property services, other purchased services, supplies and equipment. The object codes may have a further breakdown by different types of expenditures under each object code. For example, salaries could be further broken down into salaries for teachers and other salaries for instruction.

Below are definitions taken from the [Kansas Accounting Handbook](#) explaining what expenditures should be charged under which code.

FUNCTION DEFINITIONS

EXPENDITURES

Code

1000 Instruction

Instruction includes the activities dealing directly with the interaction between teachers and students. Teaching may be provided for students in a school classroom, in another location such as a home or hospital, and in other learning situations such as those involving co-curricular activities. It may also be provided through some other approved medium such as two-way interactive video, television, radio, telephone, and correspondence. Included here are the activities of aides or classroom assistants of any type (clerks, graders, teaching machines, etc.) that assist in the instructional process.

Include only regular and part-time teachers, teacher aides, or assistants, homebound teachers, hospital based teachers, substitute teachers and teachers on sabbatical leave.

2000 Support Services

Support services provide administrative, technical (such as guidance and health), and logistical support to facilitate and enhance instruction. These services exist to fulfill the objectives of instruction, community services and enterprise programs, rather than as entities within themselves.

The subfunction of this function include: Student Support Services, Instructional Staff Support Services, General Administration, School Administration, Business, Operation and Maintenance of Plant Services, Student Transportation, Central Support, and Other Support.

3000 Operation of Non-Instructional Services

Activities concerned with providing non-instructional services to students, staff or the community. This would include such activities as food service operations, enterprise operations (such as LEA bookstores) and community services (such as recreation, public library, and historical museum).

4000 Facilities Acquisition and Construction Service

Activities concerned with acquiring land and buildings; remodeling buildings; constructing buildings and additions to buildings; initially installing or extending service systems and other built-in equipment; and improving sites.

5000 Other Services

A number of outlays of governmental funds are not properly classified as expenditures, but still require budgetary or accounting control. These are classified under *Other Services*. These include debt service payments (principal and interest) and certain transfers of monies from one fund to another.

SUBFUNCTION DEFINITIONS

EXPENDITURES

Definition - A subfunction is the next level of accounting breakdown under the functions. An illustration of this in the Support Services function would be:

Code

2000 Support Services

- 2100 Student Support Services
- 2200 Instructional Staff Support Services
- 2300 General Administration
- 2400 School Administration
- 2500 Central Services
- 2600 Operation and Maintenance of Plant Services
- 2700 Student Transportation Services
- 2900 Other Support Services

The numbering code for the main subfunctions always has been hundreds in the last 3 digits such as 2100, 2200, etc.; 3100, 3200, etc. Further breakdown below the main subfunctions will continue such as:

- 2110
- 2111
- 2112

There are no subfunctions in the Instruction function category.

OBJECT DEFINITIONS

EXPENDITURES

The final breakdown of expenditures is called object codes. The object codes include such expenditures as salaries, employee benefits, purchased services, supplies and equipment. A detailed breakdown of object codes is provided for those schools that would like a further breakdown.

Listed below are the nine major object codes and their definitions:

Code

- 100 Personal Services - Salaries** - amounts paid to all employees of the district. This includes gross salary for personal services rendered while in the payroll of the district.
- 200 Employee Benefits** - Amounts paid by the district in behalf of employees; these amounts are not included in the gross salary, but are in addition to that amount. Such payments are fringe payments and, while not paid directly to employees, nevertheless are part of the cost of personal services. *Used with all functions except 5000.*

- 300 Purchased Professional and Technical Services** - services which by their nature can be performed only by persons or firms with specialized skills and knowledge. Included are the services of architects, engineers, auditors, dentists, medical doctors, lawyers, consultants, teachers, accountants, etc.
- 400 Purchased Property Services** - services purchased to operate, repair, maintain, and rent property owned or used by the district. *These services are performed by persons other than district employees.*
- 500 Other Purchased Services** - amounts paid for services rendered by organizations or personnel not on the payroll of the district (separate from Professional and Technical Services or Property Services). While a product may or may not result from the transaction, the primary reason for the purchase is the service provided.
- 600 Supplies and Materials** - amounts paid for items that are consumed, worn out, or deteriorated through use.
- 700 Property** - expenditures for acquiring fixed assets, including land or existing buildings; improvements of grounds; initial equipment; additional equipment; and replacement of equipment.
- 800 Other Objects** - amounts paid for goods and services not otherwise classified above.
- 900 Other Uses of Funds (Appropriated Funds Only)** - this series of codes is used to classify transactions which are not properly recorded as expenditures to the LEA but require budgetary or accounting control. These include redemption of principal and interest on long-term debt and fund transfers. *Used with governmental funds only.*

Fund Classification Descriptions

Description

- **General Fund, Supplemental General Fund** (i.e. Local Option Budget/LOB)
Accounts for all financial resources of the LEA except those required to be accounted for in another fund.
- **Special Revenue Funds** (Adult Education, Special Liability Expense, Adult Supplemental Education, Bilingual Education, Virtual Education, Driver Training, Professional Development, Parent Education Program, Summer School, Special Education, Vocational Education, Textbook & Student Materials Revolving Fund, Capital Outlay Fund, Extraordinary School Program, Food Service, Extraordinary Growth Facility, Coop Special Education, Federal Funds, At Risk 4yr Old, At Risk K-12, Declining Enrollment, Tuition Reimbursement and KPERS.)
Account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes. Some examples of special revenue funds might include:
 - Restricted State or Federal grants-in-aid
 - Restricted tax levies

A separate fund may be used for each restricted source, or one fund may be used supplemented by the dimension Project/Reporting code.
- **Capital Project Funds**
Account for bond proceeds used to acquire or construct major capital facilities.
- **Debt Service Funds** (Bond & Interest, Special Assessment, No-Fund Warrants and Temporary Notes)
Account for the accumulation of resources for, and the payment of general debt, principal and interest.
- **Internal Service Funds**
Internal Service Funds are used to account for the financing on a cost-reimbursement basis of goods or services provided by one department or agency to other departments or outside agencies. This type of fund is used to ensure that all costs are accounted for and recovered through user fees. However, use of an internal service fund is not required. It is acceptable to use a special revenue fund for this purpose.

- **Trust and Agency Funds** (Recreation Commission, Recreation Commission Employees Benefit, Library Board, Library Board Employees Benefit, Historical Museum, School Retirement, Special Reserve Fund, Contingency Reserve Fund, Gifts and Grants.)
- **General Fixed Asset Accounts**
All of a governmental unit's fixed assets which are not recorded in an enterprise, internal service, or trust fund, should be recorded in the General Fixed Assets Account Group. This account group is not a fund and does not, therefore, report operations like the general fund or a special revenue fund. It is essentially a list of the district's fixed assets and is designed to help ensure accountability.
- **General Long-Term Debt Account Group**
All of a governmental unit's long-term debt that is not recorded in an enterprise, internal service, or trust fund, should be recorded in the General Long-Term Debt Account Group. This account group is not a fund and does not, therefore report operations like the general fund or a special revenue fund. It is essentially a list of the district's unmatured debt such as general obligation bonds, temporary notes, and no-fund warrants. It would also include liabilities for certain compensated absences (vacation and sick leave) and other claims and judgments against the district.
- **NOTE: Student Activity Funds**
Accounts for moneys related to fees and user charges, gate receipts, school project accounts, student organization accounts, and special revolving accounts. Go online to www.ksde.org, look under most requested topics and select > School Finance. Under School Finance Index, select Guidelines and Manuals and download the **Kansas Accounting Handbook**. Refer to the section called **Guidelines for School Activity Funds** that outlines the specific guidelines for these accounts.
