# MAXIMIZING PERSONALITY STRENGTHS & MINIMIZING PITFALLS

July 9, 2025  
8:30 am - 3:30 pm

## Workshop Description

All people are wired differently, and lots of times we are blind to our own pitfalls and challenges. This workshop will guide participants through the process of discovering different ways they interact with people, information and life experiences. Gaining insight into some of these traits (extraversion/introversion, intuitive/observant, thinking/feeling, judging/prospecting) can help us have compassion and understanding with ourselves and others. Understanding your personality type will not only help you become a better you, but it will help your relationships personally and professionally. The instructor will focus on traits from Myers-Briggs, Keirsey Temperament Sorter, and 16 Unique Personality Types.

## Presenter Information

**Jennifer Winter** has almost 25 years of classroom experience in secondary education teaching history, psychology and AP Psychology. She has a Bachelor of Arts in Secondary Education from Wichita State University (go Shox!!) and a Master of Arts in Teaching from Friends University. Jennifer taught in USD259 for eight years and this is her 17th year at Campus High School. In her spare time, Jennifer enjoys hanging out with family and friends, reading, running and going to concerts with her husband.
